Upcoming Meeting

Monday
October 13th , 2009
@7:30 p.m.
In
The Royal Canadian
Legion Basement

Minutes of the Previous Meeting

The President, Karl opened the meeting at 7:30. There were 16 members present with no guests.

Old Business

Ray Savard, by donating the \$100.00 to the Club has earned himself 2 years paid up membership dues for the years 2010 and 2011.

A motion was made by Richard Besner to only hold the nominations of Officers in October and have the election of Officers in November. Seconded by Jeb Ward. CARRIED.

New Business

Richard Besner was awarded a set of "Wings" after having successfully completing

the "Wings" program.

The President appointed an interim Secretary and Treasurer to temporarily fill in until the elections in November. They are Richard Besner and Marc Gagnon.

Karl announced the tentative dates of the "Chili" flys". They are October 24, 2009 which will be catered by Ed. Renaud. November 21, December 19, January 23, 2010 February 20, March 20, and April 17 or 24, 2010. The "Chili cooks will be decided closer to the dates picked.

Indoor electric flying will be resuming soon at the Cornwall Armories. Karl would like to work out an arrangement with the Commander of the Air Cadets to find out if some joint flying can be arranged between the Air Cadets and the Cornwall Aero Modellers. It is quite possible that this might lead to free flying on Sunday nights.

The Annual Zone meeting will be held in Ottawa on Sunday October 25, 2009. Karl; has requested that all members who are not going to this meeting to please fill out your proxy form that will be found in the MAAC Magazine and get it to him so that he can vote in your stead .

The two lawn tractors are to be readied for Winter storage by being pressure washed and stored away until spring. Stéphane Claude volunteered to pick up both mowers and deliver them to Richard Besner for storage.

Karl mentioned that he hoped that there would be enough interest to start a scaled down IMAC at the Cornwall field next year using smaller models like the "Pulse XT". We could devote one night a week at the field for this activity. As a matter of interest IMAC stands for International Minature Aircraft Association. They fly a modified aerobatic pattern in competition.

Some long overdue money was paid out to a couple of members such as Cliff Morris was paid \$36.00 owed him for paint purchased to paint the picnic tables. Stephan Claude was paid \$100.00 owed him for a heavy roller used to flatten the field in the Spring. Editors Note: This roller did a great job of leveling the field as it weighed a ton or more.

Stéphane asked for and received a chance to speak to the members about

getting involved in Go-Kart racing in Quebec.

Amotion for adjournment was made at 21:10 by Ed Renaud

Show and Tell

Jeb Ward demonstrated a type of aircraft kit where only the main parts are supplied like the plans, the bulkheads and the wing ribs. The builder is supposed to supply the rest of the material to complete the construction of the aircraft.

Karl showed us the aircraft that he won in a raffle held at the Kingston contest. It was an ARF covered in red and white Monocote. A very nice aircraft.
