Next Club Meeting

Mon. Feb. 13th, 2012
 7 :00 @ The Legion

Downstairs

Minutes Of Meeting

Venue: Legion, 415 2nd Street, Cornwall
 Date: January 9th, 2012
 Time: 7:30 pm
 Present: 12 voting members

1- Treasurer's report:

A detailed report was given by the Treasurer.

Last Bank Statement.....\$xxxxxxx
 Income.....\$xxxxxxx
 Expenses.....\$xxxxxxx
 New Bank Balance.....\$xxxxxxx

Adopted.

2- Minutes of last meeting:

Adopted without discussion

3- Old Business:**IMAC Free Style Event**

Due to unforeseen circumstances the date of the event was changed to July 14th and 15th. This was in conflict with the Zone Float Fly.

We are presently in contact with RVC, Goeff Strotmann, to change the Float Fly date to June 23rd.

Road Trailer:

In recognition to an outstanding contribution by Ed and Albert Renaud, it was agreed unanimously to waive their membership fee for 2012.

Ed and Albert obtained from MiniMax Transport a 48' road trailer to be used by our Club as a safe storage.

Rick Besner will propose a plan to the Club for the installation and renovation of the trailer.

Roger Bélanger will prepare plans for a ramp.

Given the snow situation the trailer will likely stay in storage at MiniMax until spring.

FPV:

Richard Barlow has agreed to give an introduction to FPV at the next Club meeting on February 13th at the legion.

We will have a very brief Club meeting starting at 7:00pm in order to give the floor to Richard at 7:30pm.

4- New Business:**New Sponsors**

West-End storage will be making a \$200 donation to the Club.

Rookez-Edge will be contributing prizes for our events.

Rick is negotiating with Rookez-Edge to have spring jackets made with the Club logo, More to come...

Fun Fly Raffle Plane motor:

It was recommended to buy an OS .46 AX motor for the Ultimate Biplane to be raffled at the Club Fun Fly.

Proposed: Roger Bélanger

Seconded: John Curran

Adopted unanimously

Roger Bélanger to proceed with the purchase.

5- Show-and-Tell.

Cliff Merpaw brought an UBERLITES:

This is particularly interesting as it is two planes in one. The motor, receiver, servos are fixed on a frame which can be mounted in two different airframes: a biplane or a Vapor like monoplane:

Albert brought a gigantic GeeBee ARF from Seagull models, can't wait for the Maiden flight!!!

6- Adjournment.

The meeting was adjourned at 9:00 pm.

This and That

Indoor flying has been going good with 12 Pilots in early January and 6 Pilots in late January. Lots of fun indoors with Doug showing off his Hobby Shop (**he has as much stuff as you would probably find in a Hobby Shop**). There were out of town visitors who came to fly with us which was a nice touch.

Terry Cooper has really been flying up a storm with his indoor stuff and it was nice to see him again since last fall down at the field.

Next meeting

Please note that this coming meeting will start at 7:00 instead of 7:30 to permit us to allow time for our guest Richard Barlow to tell us all about the FPV that the Club has shown an interest in. The meeting will be kept short to allow enough time for Richard to demonstrate and explain and answer questions that the members might have.

See you all there at the meeting at the Legion at 7:00 pm in the basement.
