

Cornwall Aero Modellers

NEWSLETTER

October 2016

**Club Executive**

**President: Karl Kingston**  
**Vice-president: Rick Besner**  
**Treasurer: Roger Belanger**  
**Secretary: Mike Cafferky**  
**Field manager: open**  
**Events: Jack Dikland & Merv Blizzard**  
**News editor: Frank Reaume**  
**Safety Officer: Taylor Pratt**

The October meeting was held on the 3<sup>rd</sup> at Minimax.

- The treasurer's report was presented and adopted. The club is still showing a nice surplus.
- Members will be winterizing the field on October 15, which will also be the first chili day of the fall/winter season.
- The 2017 spring float fly will again be held at Guidon Park. The club will try to devote more advertising to the summer float fly at Creg Quay.
- The Annual Zone Meeting will take place at the Air Museum in Ottawa on October 23. Car-pooling will originate at the CAM field at 9am for those wishing to participate.

- The Christmas dinner is scheduled for December 17 at Schnitzel's restaurant. Please advise the secretary if you plan to attend.
- Discussions with the Alexandria Dome are underway, to secure some good indoor flying dates for club members.
- The club is also reviewing the renewal of our lease with the City.
- The secretary will look into the possibility of a model show at either Benson Centre or Cornwall Square.
- Chili dates upcoming are: October 15, November 19, January 21, February 18 and March 18.

---

One of our newest members, John Marino, successfully passed his Wings test on the fall work day, October 15.

Congratulations to John, who has pitched in to help with the grass-cutting task during the summer, and who now joins the fraternity of model flyers.

---

## Proposed solar farm adjacent to the CAM field

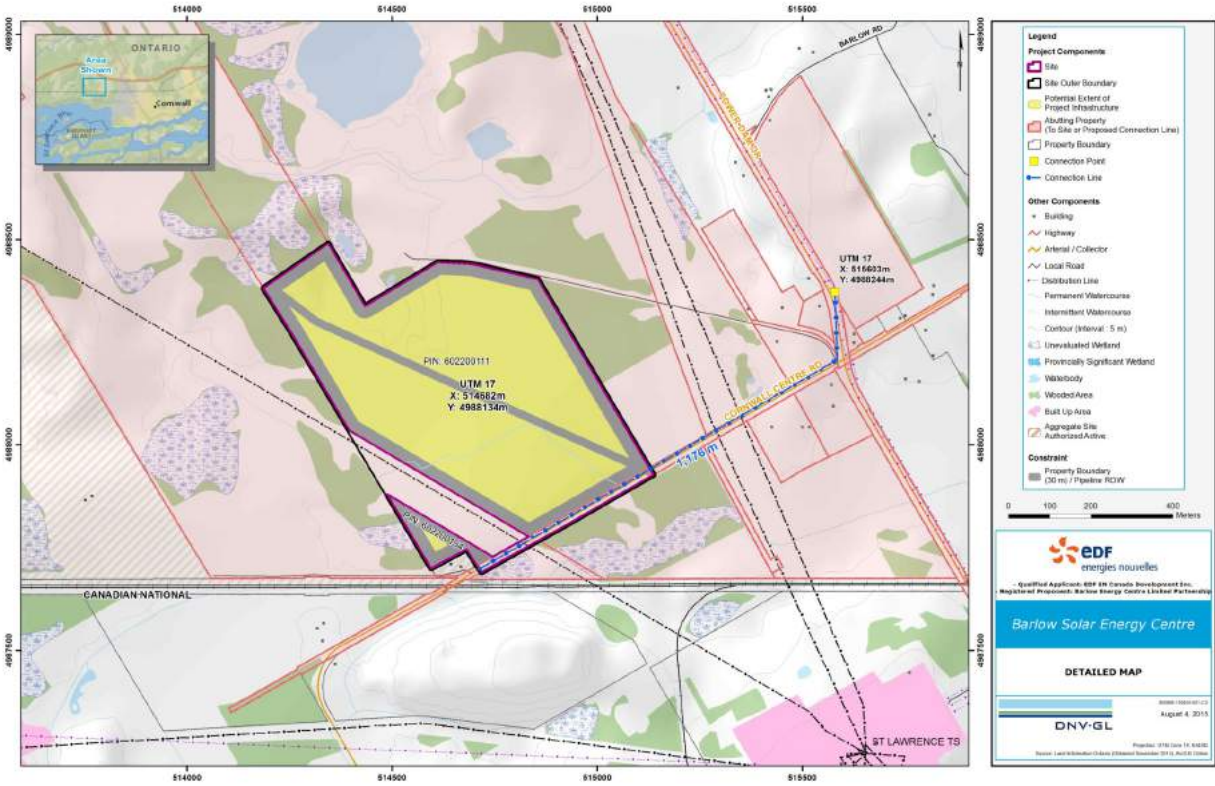

**A company known as “EDF EN Canada” released the following statement:**

We are very pleased to inform you that we were successful with our bid and, on March 10, 2016, we have been awarded a contract by the IESO for 10 MW a/c to build the **Barlow Solar Energy Centre** in the Township of South Stormont and the City of Cornwall.

### *About the Project*

The project is situated on up to two parcels of privately owned land located within the Township of South Stormont with a total area of approximately 100 acres. Comprised of photovoltaic panels with a contract capacity of 10 MW, the project anticipates to connect to the existing distribution line along Power Dam Drive by utilizing road right of ways within the City of Cornwall and the Township of South Stormont. The proposed connection point is located about 600 metres east of the site.

Shown below is a map of the area, outlining the boundaries of the solar farm:

Realflight has just announced its latest r/c simulator – Realflight X!

Unfortunately, the Minimum Recommended System specs are brutal:

Windows 7, Windows 8 or Windows 10. 64bit

Quad-core processor

AMD FX-4300 or equivalent

DirectX 11 Mid-Range Video Card with 2 GB of video memory

GTX 460 or better

30 GB Hard Drive Space

4 GB RAM

DVD Drive

According to posts on the forums, that pretty much kills every single laptop on the market, and pretty much 75% of all consumer desktops that use integrated graphics (GPU and CPU combo cores). People are not going to be happy with that.

---

Following the successful summer float fly at Creg Quay, the CAM executive presented a donation of \$500 to the charitable organization “Beyond 21”.

Here are a couple of new aircraft now on the market – a pattern plane and an Imac plane. Check out AJ Aircraft on the interweb for more details.

**INTRODUCING...**  
**Our New Family Members!**

**IN STOCK!!**

**\$399**

**HELLO**  
my name is  
**ACUITY**

**FEATURES:**  
62" Wingspan  
5-6 lb AUW  
Removable Rudder  
Carbon Fiber Gear & Tubes  
Ultracote Covering

The advertisement features a high-quality photograph of a white model aircraft with red and blue stripes. The aircraft is shown from a three-quarter front view, highlighting its sleek design and high-wing configuration. A 'HELLO my name is' name tag is attached to the fuselage, with the name 'ACUITY' written in blue marker. The background is a soft, light-colored gradient, making the aircraft stand out. The text is bold and eye-catching, with 'IN STOCK!!' and '\$399' in large, vibrant colors.

**HELLO**  
my name is  
ARS 300
